These questionnaires help Field Camp staff understand more about you as we prepare for camp, even if you've come to Field Camp many summers before. Note that we have updated many questions to be more aimed toward you, a returning Field Camper. Please give these responses time and thought, as we will factor them into how we determine our camp acceptances.

1. By this point, you've probably been asked by friends and/or family about why you choose to spend time on this farm during your summer break. What do you tell them?

2. What work did you enjoy most last summer, and why?

3. What non-work activity did you enjoy last summer, and why? What would you have liked to do?

4. What was challenging for you last summer? Did you grow from it in the year that followed? Are there things you could have done differently? Elaborate.

5. This summer, we will be empowering you, returning campers, to lead some afternoon activities. What could you offer to your fellow-campers? What materials/other logistics would you need? Why would it be relevant to do this activity?
